SUMMARY

Full Stack Developer specializing in PERN Stack, with hands-on experience in building full-lifecycle community web platforms and management systems. Skilled in architecting secure RESTful APIs, implementing robust database CRUD operations, and engineering responsive user workflows. Passionate about clean code standards, data integrity, and delivering scalable, real-world web apps.

TECHNICAL & PROFESSIONAL SKILLS

- Frontend : React.js, JavaScript (ES6+), HTML5, CSS3, Responsive Design, State Management.
 - Backend : Node.js, Express.js, PostgreSQL, RESTful API Architecture, Authentication & Authorization.
 - Programming Languages : Java and Python(ML Model Training), JavaScript and SQL.
 - Developer Tools : Git and GitHub, Figma, Postman, Agile Methodologies.
-

PROFESSIONAL EXPERIENCE

ADVI Group of Companies

Jun 2025 – Aug 2025

- Engineered Python-based computational solutions, data processing for real-world problem-solving.
- Trained, tuned, and evaluated multiple Machine Learning models using Python ML frameworks.

Full Stack Web Development | Self-Directed

May 2025 – Present

- Developed responsive components using React.js, JavaScript (ES6+) for cross-device performance.
 - Architected secure RESTful APIs with Node.js and Express, handling routing and custom middleware.
 - Connected React frontends to backend's REST endpoints to enable seamless, real-time data flows.
 - Designed and managed relational databases using SQL to handle data safely and efficiently.
 - Managed code repositories, collaborative workflows to enforce clean code architecture & versioning.
-

PROJECTS

Little Bloom | Fullstack Web Application

Built fullstack Anganwadi's web app to track child growth metrics and attendance tracking system.

FLAMS Bridge | Frontend Web App | Hackathon at KPRIET

Architected an agricultural marketplace connecting producers to buyers via APIs and endpoints.

Web OS | Frontend

Developed an interactive browser-based OS UI integrating multiple modular desktop applications.

EDUCATION

B.E - Computer Science And Engineering (8.57) | AVSEC

2023 - Present

Municipal Boys Higher Secondary School (83.34%)

2021 - 2023

CERTIFICATIONS AND ACHIEVEMENTS

- 1st Place – Paper Presentation at KSREC : Presented technical paper on real world Civic Issue Solving,
2nd Place – Technical Quiz, RPSIT: Placed 2nd among all competitors in core technical cs concepts.
- Full Stack Web Development Certificate – Udemy, Python Certification (Mastering the Essentials) – Scaler, Oracle Technical Certification – Oracle, Digital Literacy & Career Pathways –LinkedIn Learning, Professional Skills Certificate – TCS iON
